

# Maggie Benton

*Fresh graduate out of Digital Crafts bootcamp with a strong grasp of React.js, Vanilla JavaScript, Full Stack web development skills and strong teamwork-oriented app building. Spent over ten years in the service industry building interpersonal skills to be able to work more effectively as a team member and be able to properly communicate issues in code.*

## Education:

*January 2023–July 2023*

### Digital Crafts Web Development Course

Part Time student

Full Stack education program covering basics (HTML, CSS and JavaScript), Modern Front-End frameworks (React.JS and Redux), and Back-End frameworks (SQL, Postgres and Node.JS).

### Other Tools learned and utilized include:

- Netlify
- GitHub
- GitBash
- Express
- Postman
- Bootstrap

### Currently learning these languages:

- Sequelize
- Unit-Testing
- C-languages basics

### Recent Projects:

- [Pokemon-React project](#): June 10<sup>th</sup>, 2023. Project Lead. This Project was a revamping of an early project I completed early on in the DigitalCrafts program. I utilized the PokeAPI and the Pokemon TCG API to create a React and Redux based application focused on searching for your favorite cards of your favorite Pokemon.
- [IMDC film review app](#): May 12<sup>th</sup>, 2023. Co-Creator. This project focused on utilizing ES6 rendering engine and routing to create a website that pulled and pushed data into a database to display user reviews and to receive new ones. Utilized Bcrypt to ensure user passwords and secure data were stored safely in the database linked to the application.
  - **Full-Stack application: Coming Soon**
